

Editorial Note

The Board of Editors of *Air & Space Law* is happy to announce that this year's prize has been awarded to **Alan Khee-Jin Tan** for his excellent essay entitled *Liberalizing Aviation in the Asia-Pacific Region: The Impact of the EU Horizontal Mandate*.

The prize consists of a year's subscription to *Air & Space Law* and USD 1,000 worth of books from Kluwer Law International's air and space law list, to be selected by the winner. The winning essay has, in view of its highly topical character, in the mean time been published in *Air & Space Law*, Vol. XXXI, issue 3.

The jury consisted of Members of the Board of Editors of this Journal. The Board of Editors congratulates the winning author with his well-deserved prize.

In 1998 the Board of Editors of Air & Space Law decided to create an annual prize for legal essays in the field of air and/or space law, naming it after one of the former Board members and currently Honorary Member of the Board, Prof. Em. Dr. Isa Diederiks-Verschoor.
